

Class Test – II

Taken By: Dr. Md. Mostofa Akbar

CSE 325 (Information System Design)

Jan 18, 2022

Duration: 30 min

Total Marks: 20

The answer of the following question must be handwritten on paper. You have to upload the image of the answer script in the moodle link against the assignment “Class Test-II taken by Dr. Md. Mostofa Akbar”. The deadline of uploading is 12:45 PM. This is an open book exam. You can use any kind of material (book, class note, handout, internet). Discussion with anybody during exam is completely prohibited. Any substantial similarity in the answer scripts will be treated as plagiarism.

Question: You are assigned to develop a project management software which will be developed as a product. This product will be developed for the purpose of selling as an off the shelf product rather than customized product for any particular organizations. It is expected that this product will be used by thousands of company for their project management. Do the following to design the process using guidelines of Rational Unified Process:

- Identify the workflows for this development.
- Identify the iterations in the development process.
- Show the involvement of the workflows in different phases/iterations graphically.
- Mention the reason of the shape of the graphs you proposed.
